## **Guidelines for Deliverables**

- Use a 12 point "serifed" font such as Times New Roman.
- Document should be double-spaced.
- Document should have 1" margins in all directions.
- Page numbers are required centered at bottom of screen.
- Equations must be numbered.
- All variables must be italicized.
- All variables in an equations must be defined (i.e. "where c is the speed of sound").
- Theoretical curves should always be smooth and continuous.
- Measured data should be individual markers. If there are more than 20 measured data points, you connect them or use a continuous line.
- Plots should always have axes clearly labeled with units.
- Plots should always be centered with captions beneath labeled Fig. 1, etc.
- Tables should always be centered with captions above labeled Table 1, etc..
- Tables should be black text on white background with the same font as the rest of the document.
- Captions should be the same font as the rest of the document.
- NO TITLES ON GRAPHS

**References** – Tech memos must include 2 references. These can be data sheets from the lab website, articles from the internet, the textbook, etc. References should follow the ASME format.
